I liked the first S&S but I don't enjoy this one in the slightest. One issue is that nothing about the sequel is improved, it is worse than the original game. In particular the game balance is very poor. One annoying design feature from the first game that has been left in makes the game very frustrating for me. When you go into the menu to chose what tech to develop next the game doesn't pause. I like real time games but I enjoy taking my time deciding my strategy. This lessened my enjoyment of the first game and ruins it for the sequel.. I liked the first S&S but I don't enjoy this one in the slightest. First Post! - Early Access Release Date Announcement : Hello, everyone! Thanks to the support of many people, we are doing our best to prepare the Early Access version of Second Second.. Weekly News #30 - PvP Update Event : Hello! The beta of Second Second PvP mode will be updated at 24, May(Fri). Weekly News #24 - Renewal! : Hi! We have finished works over several weeks and finally have updated the client. The main updates include: (We will introduce details one by one next week.)  
1. You can change the card notation to the simplified version and detailed version.. Weekly News #17 - Event Notice : Hi! We have prepared an event for you during card and UI renewal works. If you upload the screenshot of Sector 5 in Standard mode 10 on the Steam Community, we will pick the top ten players who uploaded the most and send them a Second Second steam key. The deadline is until next week's patch notes. + We also prepared a small gift for the first place.. Weekly News #2 - Training Mode, Standard Mode Difficulties! : It has been a truly long week for our team after the release of Second Second. A big portion of what we did was reading all the comments reviews, watching streamers playing the Second Second. It has been a precious chance to see and understand how what we designed is received by gamers outside of our team and also a great opportunity to map our next direction.
